E. V. Lantz was in Jettmore this week attending to a law suit.

Our coal dealers have been selling large quantities of coal the past week.

Mrs. J. Q. Adams and Mrs. T. J. Tate have opened a restaurant near the depot.

Santa Fe Conductors H. M. Marshall, E. B. Sill and E. E. Ives have been assigned to California and Chicago limited trains Nos. 3 and 4.

W. E. Hendricks came in from Colorado Springs, Monday, and has gone to join his wife, at her home in Paducah, Ky., where they will spend the winter.

Foster says the principal feature of the early November storm will be general rains and snows, not so heavy as will have accompanied the previous disturbance.

C. E. Haywood informs us that a Mr. Lucas, from Indiana, is purchasing cattle in the Wilbur neighborhood, and paying \$13 for calves and \$25 for two-year olds. He will buy about 200 head and hold them in that part of the country.

THERE can be only one objection to Judge Martin for chief justice. He looks like Ed. Madison, of Dodge.—Journal.

Ed. is considered a handsome man.—Dodge GLOBE-REPUBLICAN.

Ed. will have to have the point of his nose trimmed down before he can pose as a "beaut."—Ashland Journal.

Ed. says his nose would be all right if he could color it like the beautiful carnation that embellishes the Journal editor's nose.

After the October disturbances rain in the South and snows far North will very largely increase, and the final relief of all drought-stricken countries will speedily follow. A vast amount of snow and rain will fall in all countries of America north of the equator between this and January 1. Our atmosphere is greatly expanded, and holds more moisture than it has for many years. The conditions are now favorable for precipitating that moisture, says Foster.

FORT DODGE ITEMS.

The roads and fields are very dry. We will have to get up another irrigation convention. See how it rained during the irrigation meeting at Garden City. When the irrigation excitement is high the air becomes charged with moisture and rain is thereby precipitated upon the buffalo grass.

Mr. Sloan the U. S. Pension Examiner has been to the Fort several times recently.

Comrade Fitzclarence—ubiquitous Fitz, has been heard from. He is now in the California State Home at Yountville, and recuperating in hospital, convalescent ward, which is denominated as Co. "H."

Mr. Raglin and son Claude from Meade visited the Fort Wednesday night.

Comrades Powers of the 3d Maryland; Geska, of the Ninety-third Illinois; Wheeler of the 3d Colorado; Eubanks of the 4th Ind. Cavalry, are late arrivals. We will keep posted as to these arrivals in the future, for by publishing they may find some of their long lost comrades, or some they would like to lose.

A man walking with crutches was begging in the Fort on Sabbath. Some imagined that he straightened up a little while leaving, but this should not deter any from giving something to those who appear worthy.

Prof. Webb visited the schools several weeks since and reports progress.

Miss Jennie Fitzgerald, of Dodge City, visited friends in the Fort Saturday and Sunday.

Comrade Barlow rang the bell at 6 o'clock, Saturday morning.

There are some new arrivals—one at Burgess', one at McCaffrey's, one at Robert's, and every mother's son is a girl. This is one mode of increase not contemplated by the fathers—a strange and curious fact—as the darkey said a scandalous fact. It has been a subject of careful and prayerful consideration by the Boards, but it will not down, and reminds us of Artemus Ward. He went to church one Sunday, and during the service the minister exclaimed "How are the mighty fallen?" Artemus thinking the question was asked the congregation, scratched his head and replied, "I give it up!" As these new inmates are all girls it does not foreshadow war, for we are commanded in peace to prepare for war, so the war must be on. And there are several more about to undergo "the pleasing punishment that women bear," and the Fort continues to grow—by accident as well as by application. These "accidents" will happen in the best regulated families, for it is even said in the Scriptures that Adam knew Eve, and they were the Alpha of the human race.

FROM SPEAREVILLE.

Our farmers are busy putting in their wheat and rye, notwithstanding the very dry weather. Quite a large crop will be put in this fall. As to drought, western Pennsylvania seems to have a more serious experience of it than we have. Farmers there are having to haul water for miles for their live stock and the Chartist's R. R. hauls water more than 20 miles to run its switch engine at Washington, Penn.

C. W. Richardson of the first fire district and T. B. Stewart of the second are through with their fire guard burning, and W. E. Fowler of the third, will be through in a few days, when Speareville township will be pretty well protected from the fire fiend.

P. J. Upp met with what might have proved quite a serious accident on Saturday last. He was returning from Dodge City, and when some two or three miles west of Speareville, it is supposed, the team took fright at a train and became unmanageable. When discovered he had his team loose from the wagon, holding them near Mr. Woodbury's barn, and seemed in a dazed condition, unable to give any lucid account of the affair. A few bruises with a severe pain in his head is all the serious results, but he can as yet give no account of what, or how it happened.

Rev. Thos. McClement of Lakia, Kas., preached in the Presbyterian church on last Sunday.

H. W. Dorsett, who has spent some ten days in Kansas City, and eastern Kansas, returned home on Saturday night. A car load of very fine apples preceded him by a few hours.

Candidates are as thick as sand bars and about as hard to shake off.

The Republicans are to have a grand rally in Speareville, on Saturday afternoon and night. A free supper and music from Beeson's Orchestra are to be thrown in as condiments.

Miss Myrtle Blackburn, who lives in the family of L. W. Nichols, has been quite sick the past week, but is now convalescent.

The Santa Fe R. R. has brought about seventy colored men here to put down steel rails on their track. A. B. Glaze, formerly of Wright, I believe is to have charge of the work. Nix.

R. G. Dun & Co. in their trade review for the past week says nobody can give a reason for high corn. If these gentlemen were here in the west where the corn is and would make a note of the number of cattle that are coming from everywhere to be fed they could perhaps discover some reason for higher corn. —Topeka Journal.

Rainfall in November will be near normal, taking an average of the whole country. In Northern New England, about the upper lakes, in the Ohio and Lower Missouri valleys, the rainfall will be a little below the normal, says Foster.

If your children are subject to croup watch for the first symptom of the disease—hoarseness. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse it will prevent the attack.

Even after the croupy cough has appeared the attack can always be prevented by giving this remedy. It is also invaluable for colds and whooping-cough. For sale by W. F. Pine.

The Darlington, Wis., Journal says editorially of a popular patent medicine:

"We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is claimed for it, as on two occasions it stopped excruciating pains and possibly saved us from an untimely grave. We would not rest easy over night without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by W. F. Pine.

Stowell, Executor of the last will and testament of Mary A. Wickwire, as plaintiff, did, on the 17th day of October, 1895, file her petition in the District Court of Ford county, Kansas, against you as defendants, setting forth that Thomas Conley and Margaret A. Conley of said defendants, on the 1st day of November, 1893, gave their mortgage to the McKinley Mortgage and Debenture Company, a corporation, which said mortgage is now owned by plaintiff, on the following described lands in Ford county, Kansas, to-wit: The northwest quarter of section twenty-six (26) in township twenty-five (25) south of range twenty-four (24) west of the 6th principal meridian, to secure the payment of the sum of Four Hundred and Fifty dollars, as shown by their promissory notes now owned by plaintiff and referred to in said mortgage, and praying judgment against you Thomas Conley and Margaret A.
